

Diluent/Reducer

DESCRIPTION: AFM Naturals^a Diluent/Reducer is specially formulated to be used as a diluent and reducer for all AFM Naturals^a plant-based oil products, as necessary for the particular application. It is designed to reduce the solids content of the primary coating to promote penetration and leveling. It is also a very suitable clean-up medium for oil-coated tools.

PRODUCT NUMBER AND CONTAINER SIZE:
40299 (quart) and 40199 (gallon).

INGREDIENTS: Unlike other products used for similar purposes, AFM Naturals^a Diluent/Reducer is benzene free and contains no aromatic compounds. Its primary component is a unique cosmetic and food processing grade aliphatic solvent, highly refined to reduce offgassing and toxicity. Non-Flammable.

LIMITATIONS: Thinning products such as AFM Naturals Penetrating Oil with AFM Naturals Diluent/Reducer No.4099 may improve flow, absorption and drying, but will reduce solids, potentially affecting performance of the coating. Do not freeze. Always conduct sample patches to assure suitability for use under the applicable conditions. Unused contents should be kept in a closed container in a cool, dry place out of direct sunlight.

HEALTH PRECAUTIONS: Keep container tightly closed and out of the reach of children. Do not take internally. If swallowed, do not induce vomiting. Call a physician immediately. If splashed on skin or eyes, flush with plenty of water for 15 minutes. **If you are chemically sensitive,** always test for personal tolerance before using.

LIMITED LIABILITY: The great variation between environmental factors, possible surfaces and application techniques, and the lack of control we have over such matters, must affect our policies. AFM products are guaranteed not to be defective when applied and used in accordance with instructions. However, liability, whether express or implied, is limited to replacement of product or refund of purchase price and cannot include liability for labor costs or consequential damages. Because of the varying circumstances affecting each job, including environmental factors, possible surfaces and application techniques, and the lack of control we have over such matters, it is the user's responsibility to determine the suitability and safety of the product for any particular application. This limited warranty may not be modified or extended by manufacturer's representatives, distributors, or dealers of AFM Naturals products. **We particularly recommend that users always test in small inconspicuous areas before application to the entire surface.**

WARNING: Spontaneous combustion danger! This product is used in conjunction with other products containing vegetable oils. By itself, it is not flammable or subject to spontaneous combustion. However, rags, steel wool, sanding dust or waste soaked with oil may spontaneously catch fire if improperly discarded or stored. Immediately after each use, place rags, steel wool, paper, cardboard, sanding dust and other oil soaked waste in a sealed, water filled metal container to prevent heat build-up and fire. When drying, allow oil soaked materials to spread out in open air to prevent fire.
